We offer a wide range of upright refrigerated cabinets that work best in the storage area, are perfect for kitchen, restaurant and bakery facilities, or a pastry shop. We also offer devices designed for the medical and pharmaceutical industries.

Devices with a bottom and top mounted unit and hinged door are available in single-chamber and double-chamber version, with the possibility to divide the door horizontally. The offer also includes versions with sliding doors (double-chamber).

The devices are designed to work in the **3rd/4th climatic class**, in maximum ambient temperatures **25°C/30°C**.

STANDARD EQUIPMENT

Refrigerating unit

- 3rd or 4th climatic class
- Plug-in unit powered with ecological R-290 refrigerant ①
- bottom or top mounted unit depending on the model
- Gravitational cooling or fan assisted cooling
- Electronic temperature controller with display on the service side
- Condensate drain into defrost water collection container in all cabinets with bottom mounted unit and cabinets with top mounted unit and fans
- Automatic condensate evaporation system - **Cargo** model

Housing

- Steel, hinged or sliding door depending on the model. There is possibility the hinged door to be horizontally divided.
- Housing painted in RAL 9003 Signal white colour (standard) or other colour chosen from the RAPA colour chart (*ecoline* series) ②
- Vent lockable with magnet
- Reversible door in single-chamber devices or montage of divided door on the chosen side in double-chamber devices
- Adjustable legs*
- Base of the cabinet of stainless steel in the shape of palette - **Cargo** model

Interior

- Bottom of the storage chamber made of "mirror" stainless steel
- A platform ensuring proper air circulation - **Cargo** model
- Standard width of single-chamber cabinets: 625, 725, 825 mm (Cargo model - 780 mm), double-chamber: 1200, 1400, 1600 mm

Shelves

- Set of plasticized, standard shelves along with supports: 5 pcs. in single-chamber cabinet, 10 pcs. in double-chamber cabinet*

* does not apply to the Cargo model

ADDITIONAL EQUIPMENT

Refrigerating unit

- Automatic condensate evaporation system - for devices with bottom mounted unit
- Device without aggregate
- Evaporator protected with a preservative coating

Housing

- Set of 4 wheels with regulated foot
- Painting of housing in individual RAL colour chosen by customer
- Painting of housing in colour from the RAPA colour chart
- Housing made of stainless steel (NZ)
- Adjustable legs made of stainless steel
- Self-closing system of hinged door
- Open door sound alarm
