

Confectionery display cases

Lines A / B / EXCELLENTE C

rapa.pl/en

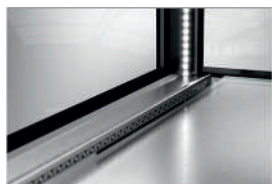

Sweet moments last longer with RAPA devices!

Confectionery display cases are essential equipment for every confectionery shop, but they can also be used in other places, such as a grocery shop, café, restaurant or even a gas station. The biggest advantage of display cases is undoubtedly their elegant and generous exposition space, which makes it possible to present the assortment placed inside in an attractive way, and allows customers to see it thoroughly from all sides.

Attract sight

You will highlight all the advantages of your products due to the **energy-saving LED lighting**.

You will gain additional space as you can store products that don't require cooling **on top of the display**.

Designed to preserve taste

In all confectionery display cases we have used the **ecological R-290 refrigerant** with whom you will take care for the environment.

You will ensure safety, because the devices A, B, C, CL and C SL, use durable, **tempered glass**.

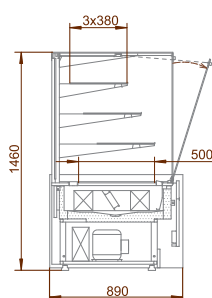

We have built into models A, B, C and CL the **automatic condensate evaporation system**.

You will keep freshness of the products as we have used in the models A, B, C, CL and C SL the **dynamic cooling system and air curtains**. This system protects the sweets every time the windshield is open.

More
information:

You can choose the finish of your device from the **wide range of colors and decors**.

Model B attracts the customer's attention with a large **illuminated plafond**, which you can additionally brand with, for example, your logo.

Due to the **electronic temperature controller** with clear display, you can easily set the best conditions.

RAPA offers both refrigerated and neutral confectionery display cases as well as matching complementary furniture, so that a set for different types of products can be easily assembled. And if you need a really spacious refrigerated display, you can order devices from the Excellente C series prepared to be combined into a refrigerated line.

For your time

We give you a possibility of ordering the **rotary wheels** which will help you to position the device at any part of the room, due to the **adjustable foot**, the device will stand stable.

We have made all of the panes, table top and shelves of **tempered glass**. It provides extra safety for you and your customers.

Sliding door

With an easy set up in mind

We have made doors of composite, low emission glass, due to which you will ensure optimal products' storage conditions and their freshness and taste.

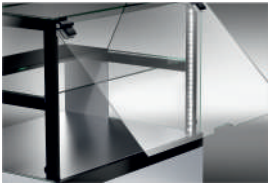

In the **Excellente line** you can **choose between sliding or hinged doors**. In the **A and B lines**, only **sliding doors** are available.

Hinged door

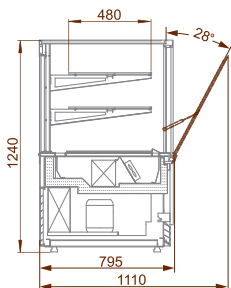

Easy service

Thanks to the possibility of **lifting up the front glass** in model C LN you can easily keep display area clean, because you have access to every nook and cranny.

C-C LN

Display case only available in a neutral version

Parameters (cm)

length **100**
depth **78**, height **120**
exposition dimensions: glass shelf **97,6 x 45,5**
bottom height **95,8 x 75,2**
shelves spacing **31,4** (from the bottom of the exhibition to the display shelf)
29,2 (from the display shelf to the glass roof of the display case)
rated voltage
230 V~ / 50 Hz

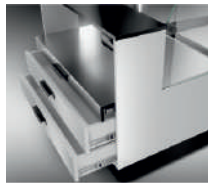

More information:

Access to the condenser requires no tools, so you can easily keep it clean and your display will last longer.

One of the biggest advantages of the new Excellente C-C SL is its high energy efficiency. This is due to the use of an **inverter compressor**.

We designed the **sliding bottom** of the display with customer service in mind. The C LN display cabinet is perfect for products that do not require refrigeration.

Furniture for the confectionery industry

You can easily match the complementary RAPA neutral furniture - cash counters and bakery shelving - to a set of confectionery display cases.
